

Please do not pass laws restricting XM from providing XM Instant Traffic & Weather. XM radio is a service that I pay for and these are features that attract me to it in the first place. The reason I pay for radio and no longer listen to regular FM radio is that it is BETTER!! Free competition is GOOD!! Satellite radio is a new technology that has enormous potential and is already struggling financially. Please don't make it any harder for them...hopefully this will encourage local radio stations to IMPROVE.
